"Helping Churches Help Others"

"Your gifts, people, and assistance encouraged me and allowed me to stay in school last year. Since that time I graduated, and am now employed. My two kids don't understand what was taking place, but if they did I'm sure they would be thanking you to. I'll tell them the story someday, and they will know what people did for us in helping us achieve and keep going. Thank you for helping me survive in my stormy time. You are appreciated keep helping." -**from a client that was impacted**

Process we follow:

1. Phone intake performed
2. Verification of info and need
3. Decision made and client notified
4. Connection of need and resource (church or agency)
5. Need met (if approved)
6. Follow up performed
